April 27, 4-6 p.m., New Gardena Hotel

1641 W. Redondo Beach Blvd., Gardena, CA 90247

The children of Fukushima have suffered unimaginable hardships.

Families and friends have been torn apart, and communities remain divided.

Even after three years, the painful situation persists. What can we do to help recover these lost childhoods?

How do we nurture each child's self-worth?

Sensuke Shishido, a former elementary school principal from Fukushima, and popular speaker and educational commentator throughout Japan, believes that we must create an environment where each precious child can thrive even in the shadow of adversity.

Please join us for an inspirational discussion about encouraging childhood dreams in the wake of disaster.
