WOMEN'S LEADERSHIP COUNTS

In 2014, Japan America Society of Southern California's Women's Leadership Counts Initiative was created as a first-of-its-kind initiative providing a platform for women in business on both sides of the Pacific to engage in professional and leadership development. Together with our partner organizations, business executives and community leaders, WLC has created a network that inspires action and moves the needle on women's leadership. It also provides unparalleled opportunities to connect with current and future leaders.
