

JAPAN MATTERS

Japan's Positive Impact on the Southern California Economy

Japan is Southern California's largest direct foreign investor and thus plays a vital role in our regional and national economies. Please join us as our panel of experts share perspectives on the research project, "Japan Matters for America / America Matters for Japan," a comprehensive and multi-activity effort to demonstrate and track Japan's importance to the U.S. and the U.S. importance to Japan. This research project is produced in collaboration between the East-West Center in Washington, D.C. and the The Sasakawa Peace Foundation, with additional data and analysis provided by the Japan Center for International Exchange.
