2015 2004 "Dom Pérignon" Brut Champagne

95 points Robert Parker's Wine Advocate

Lily-of-the-valley perfume and scents of lightly toasted brioche and almond rise from the glass of Moët's 2004 Brut Dom Pérignon, along with hints of the apricot, pear and grapefruit that then inform a luscious and creamy yet strikingly delicate as well as consummately refreshing palate. Sweet-saline savor of scallop – also already intimated in the nose – lends compulsive saliva-inducement to a ravishingly rarified and persistent finish, joined by alkaline, nutty, liquid-floral, and nori seaweed notes for a performance of head-scratching subtlety and intrigue. This will be worth following for at least the next 6-8 years, in the course of demonstrating that iconic status as a luxury brand, and elevated (albeit secret) production numbers by no means preclude a wine of understated as well as profound beauty. (11/ 2013)

95 points Wine Spectator

There's a sense of tension paired with grace in this deftly balanced version, with a rich and smoky vein of minerality underscoring the flavors of poached apple, honey, financier and sun-dried black cherry, showing hints of roasted almond, coffee liqueur and ground spice. Drink now through 2029 (9/ 2013)

94 points Stephen Tanzer's International Wine Cellar

Vivid yellow. High-pitched, mineral-accented aromas of pear, Meyer lemon, quince and jasmine, with smoke and toasted grain qualities adding bass notes. Spicy, penetrating and pure, boasting impressive vivacity to its fresh orchard and citrus fruit flavors. Gains weight and breadth with air while maintaining vivacity, picking up a gingery nuance that carries through a long, smoky finish. I'd bet on this taut, youthful Champagne rewarding many more years of patience. (11/ 2013)

2023 Extremely Dry Sake "Kariho Namahage", Akita Prefecture

A unique nose filled with grains, cedar, and ripe fruit elements. From start to finish this "Devil" is a dry sake fan's dream come true, with plump fruit tones and currents of rich roasted flavors. There is a chewiness that makes the dryness dance around the mouth and the elevated acidity leaves a full-bodied experience. 5004 HPI Racing Precision Cast Model

HPI Racing exclusive limited-edition 1/43 scale die-cast model line-up now features the stunning Lexus IS F, the amazing follow-up to the popular IS200 and IS300 models. The 'F marquee' line of cars from Lexus represents their sports models based on regular production cars, with testing done around the world and at such locales as the famous Nurburgring circuit in Germany. With advanced features such as carbon fibre door panels and a 5.0L V-8 engine, this 4-door saloon is able to achieve 0-60mph (0-100kph) times of under 4.5 seconds, an astounding record. Only a few thousand full-size versions are allocated to be built each year, making this an instant modern collectible.

This HPI model is extremely limited in production numbers because of the special high-detail resin used for the moulds. Worldwide quantities will be in the low hundreds. HPI precision die-cast metal models are 1/43 scale, a convenient size for any desk or display case. Incredible attention has been paid to make the shape of cars as true to scale as possible.

Fine exterior details like radiators, disc brakes, brake calipers, mirrors, wings, exhaust, headlights, mirrors and radio antennae combine to make the models extremely realistic.

The model has a fully painted and detailed interior, steering wheel, and dashboard. It comes mounted to a display platform that includes a clear plastic protective case and the car can be easily removed from the platform for individual display.

Every Lexus IS F model is made in a special resin material that allows our designers to precisely replicate not just every curve and shape of the original car, but every opening such as door/bonnet lines and vent or grille. Compare a resin model with a normal die-cast metal and you will quickly see the difference! Each model is also sprayed with the actual production paint used on the real car, to give you an authentic scale reproduction.

HPI resin models are extremely fragile and the wheels do not rotate, so the model should be kept mounted on its display stand.

HPI resin die-cast models are made in extremely limited quantities, once gone they will never be available again.
